Far West Masters Ski Racing

www.farwestmasters.org

Race Registration

Race entries for Far West Masters events should be submitted through our online registration system on **masters.AdminSkiRacing.com**. Deadlines and fees for all race events are posted on the **Season Schedule** page of our farwestmasters.org web site as well as on the online registration system **masters.AdminSkiRacing.com**.

*Note: only under exceptional conditions can we handle entries separately from the online registration system. We **STRONGLY** encourage all competitors to use the online registration system – it's easier and more reliable for both competitors and race organizers. If you need assistance, contact our volunteers who provide registration support at raceadmin@farwestmasters.org.*

Early Registration Deadline

The standard early registration deadline is midnight Sunday night prior to the start of the event. Entries received after the early registration deadline are subject to a $5/race late fee.

The purpose of the early registration deadline is to encourage registrations to be submitted at least a week prior to the event so race organizers have a reasonable estimate of the field size for their event planning. You can still cancel your entry without fees charged any time up until the cancellation deadline, so there is no penalty for signing up early!

Entry Deadline

The entry deadline for an event is usually set to be 1-2 days prior to the first race day to allow race organizers sufficient time to complete final preparations for hosting the event. Online registration is closed at 7pm on the entry deadline date. E.g. for a typical Sat-Sun weekend event, the entry deadline is 7pm Thursday evening.

Race organizers ***may*** accept entries after the entry deadline and before the start list is closed the day prior to the start of each race, but are ***not*** required to do so.

Cancellation Deadline

The cancellation deadline is set to be at the same time as the entry deadline when online registration is closed. You may cancel an entry at any time until the cancellation deadline and no fees will be charged.

All entries received as the entry deadline/cancellation deadline will be charged the race entry fee. This includes DNS competitors who do not participate. No fees are charged if a race is cancelled.

Refunds ***may*** be granted at the discretion of the race organizer for injury or illness, but it is the ***competitor's responsibility*** to contact the race organizer prior to the race to notify them of your withdrawal. (*Contact our registration support team at raceadmin@farwestmasters.org if you need assistance notifying the organizer of a race withdrawal)*

Start List Closed

The start list for a race is closed at the time set by the event organizer - this is generally **no later than** noon the day before the race.

You must be on the start list to compete in the race. Day-of-race entries generally cannot be accepted. Open class participation ***must*** be elected before the start list is closed.

Exceptional Conditions

The entry/cancellation deadline is set to allow the race organizer at least one working day before the start of the event to complete final preparations, such as setting up computer files for the race timing system and verifying that all competitors have a valid US masters membership to compete in the event. The entry deadline when online registration closes is *typically* Thursday evening for a weekend event. In some cases the entry deadline needs to be earlier, however, so always check the published deadline for each event that you enter.

No entry fees are charged if a race must be cancelled.

Occasionally mistakes are made in processing entry fee payments. If you believe you have been incorrectly charged a race entry fee, contact the race organizer to request a correction. If you are unsatisfied with the resolution, please bring the issue to the attention of the Far West Masters board and our race registration support team at raceadmin@farwestmasters.org so we can assist.

Membership and Equipment

You must have a US Ski & Snowboard Alpine Masters membership for the current season or purchase a short-term US alpine master membership on a per-day basis to compete – this is essential for our event insurance coverage. You must provide proof of primary medical insurance coverage to obtain your US membership.

Equipment regulations are generally flexible for masters competitors; equipment designed for the specific discipline is recommended.

******** helmet rule: FIS-certified race helmet is REQUIRED for GS, SG, and DH ********

Helmets certified for ski racing are ***REQUIRED*** for all disciplines and must cover the head and ears. Soft ear protection is only permitted for helmets used in SL. Helmets with spoilers or protruding elements, such as helmet cams or mounts, are not permitted. Protective features integral to the discipline being contested, such as chin guards on SL helmets, are permitted.

FIS-certified race helmets for GS, SG and DH must have a conformity label affixed by the manufacturer in a non-removable way, at the back of the helmet, in a position where it is not be covered by the goggle strap. The conformity label must contain the text "Conform to FIS Specifications RH 2013".

GS/SG/DH helmets
